

Allscripts Practice Performance™

Keep Your Finger on the Pulse of Performance

With instant access to the critical business measures that matter most to you, Allscripts Practice Performance enables you to keep your finger on the pulse of your practice's financial performance at all times.

Allscripts Practice Performance empowers you to monitor and respond to changes in your key A/R and reimbursement metrics faster than ever before, with:

- **Proactive** and custom alert notifications sent to your e-mail when data points fall outside the parameters, quickly monitoring operational performance.
- **Interactive** views enables you to quickly identify and monitor trends and root causes to increase your practice's performance. With simple navigation you can drill deeper into reimbursement and A/R measures.
- **Comparative** analytics enable peer comparisons by specialty and state. They define benchmarks and Key Performance Indicators (KPIs) leveraging peer and internal data.

Insight + Action = Outcomes

Enjoy a whole new level of transparency into the inner workings of administrative and functions, as well as comparative analysis and benchmarking against peer performance by specialty, both state and nationally.

Interactive Dashboard

The interactive dashboard summarizes key performance metrics for analysis.

Industry Needs:

- Improve business processes
- Enhance business analytics utilization
- Increase revenue, cash flow and productivity

Key Benefits:

- Enable management to identify trends and take quick action
- Improve profitability through transparent financial management
- Gain real-time access to compare your practice performance against peers
- Boost staff processing time and practice performance
- Leverage recommendations on reimbursements and utilization
- Anticipate and prepare for audits using data
- Meet the evolving needs of your practice

Key Features:

- Easy integration with PM platform
- User-friendly interface
- Proactive, immediate messaging and alerts
- Drill-down capability
- Unlimited current and historical data
- Comprehensive database for peer comparisons
- Determine seasonal trends with internal communications
- Instant access to data points based on customizable roles
- SaaS-based system

Allscripts Practice Performance™

Each executive or manager of a practice can create custom insights that are proactively delivered via email and within the solution. Custom Insight alerts enable your practice to analyze details in the following areas:

- Cash Flow Analysis
- Staff Processing Time
- Aged Cash Analysis
- Reason Code Analysis
- Payer Processing Time
- Denial Rates
- Procedure Code Utilization
- Service Line Volume

Group your data by location, procedure or payer.

Your Own Personal Business Consultant

Allscripts Practice Performance is like having your own business consultant embedded in your practice — ensuring you are equipped with the information you need to reduce audit risks, optimize productivity and improve financial performance.

Integrated with Allscripts® Practice Management and Allscripts Payerpath®, Practice Performance automatically digs through your data, compiling and delivering business improvement reports and information at a fraction of the cost of a consultant. Graphical displays provide easy to understand, yet compelling results, with simple drill-down functionality that enables you to pinpoint problem areas.

Measure Up to Your Peers

Have you ever wondered how your practice stacks up against your peers? Are payers treating you the same as your peers? Practice Performance gives you those answers. Through comparative analytics, you can compare payer-processing time, staff-processing time, denial rates and much more...not just nationally, but also within your state and specialty.

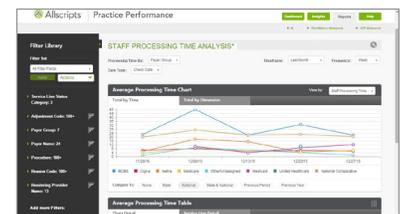

Better Business Outcomes

Accelerate cash flow, improve revenue, increase productivity and mitigate financial risk with Allscripts Practice Performance, which includes these key features:

- Proactive Alerts
- Interactive Dashboard
- Real-time Comparative Data Access

Payer Processing Time

Staff Processing Time
